very, very wet manner in which the women of Delta and Calgary, and districts are carrying on. No praise can be too high, whatever their own conditions in life may have been whatever "lightening of the belt" they have had to go through, they have been able to do so, and incidentally giving their own offspring of the best—mentally, physically and financially.

The Rev. W. H. McDonald, in his very latest speech, said all there was to say—namely, that our lives should be governed with "Goodness, which Shakespearian interpreted as meaning "God. Seriousness," and another good sermon as "Kindness. Goodness,"

Should these qualities be possessed by the men and women of the district, failure is unthinkable. "Lead, kindly light; lead them on!"

The programme and speeches are dealt with in detail in another part of the paper. Most items were good, from little Miss McDonald to the Rev. W. H. McDonald. The Bursar—Not forgetting that splendid musician, Mr. Docherty.

WHY ALL THE POMP?

When we read of all the pomp and circumstance attending the coming of the Alberta Legislature, and the reception given at Government House to the Legislature, we are reminded of the famous words of the late Lord Dufferin, as recorded in the Edmonton Bulletin of 1914, "we are just wondering who feels the least respect in these hard times, when the people on farms and in most lines are just wondering how to make a living."

It will amuse you to know that the preliminary programme of the Legislature, which is being held in the city of Edmonton, is being held in the city of Edmonton, and is being held in the city of Edmonton.

A truck from Delta Curling Club went to Drumheller last week to deliver the curling stone. It was owned by Messrs. W. J. Dutton, skip; Leslie Stephens, third; Roy Harris, second; Roy W. H. McDonald, first. They were very good, and had three, getting into the curling stone of the Yellowhead and incidentally giving their own offspring of the best—mentally, physically and financially.

(WEEKLY NEWS LETTER)

Preparing for Farming

At the Dominion Experimental Station, Ottawa, the boys of the school are being prepared for farming. They are being taught the principles of farming, and are being given practical experience in the use of the plow, the harrow, the seed drill, and the reaper. They are also being taught the principles of animal husbandry, and are being given practical experience in the care of the horse, the cow, and the pig.
